AIR QUALITY AND THE MARKET

http://matiasurbano.github.io/BBVA-Dataviz/

Matias Ariel Urbano @matiasurbano

THE DATA VISUALIZATION

- This visualization tries to explain how complex the market is and how it interacts with air quality and the citizens health in big cities, in this case Mexico DF. It also shows how often people use to move to other area to buy or consume a service.
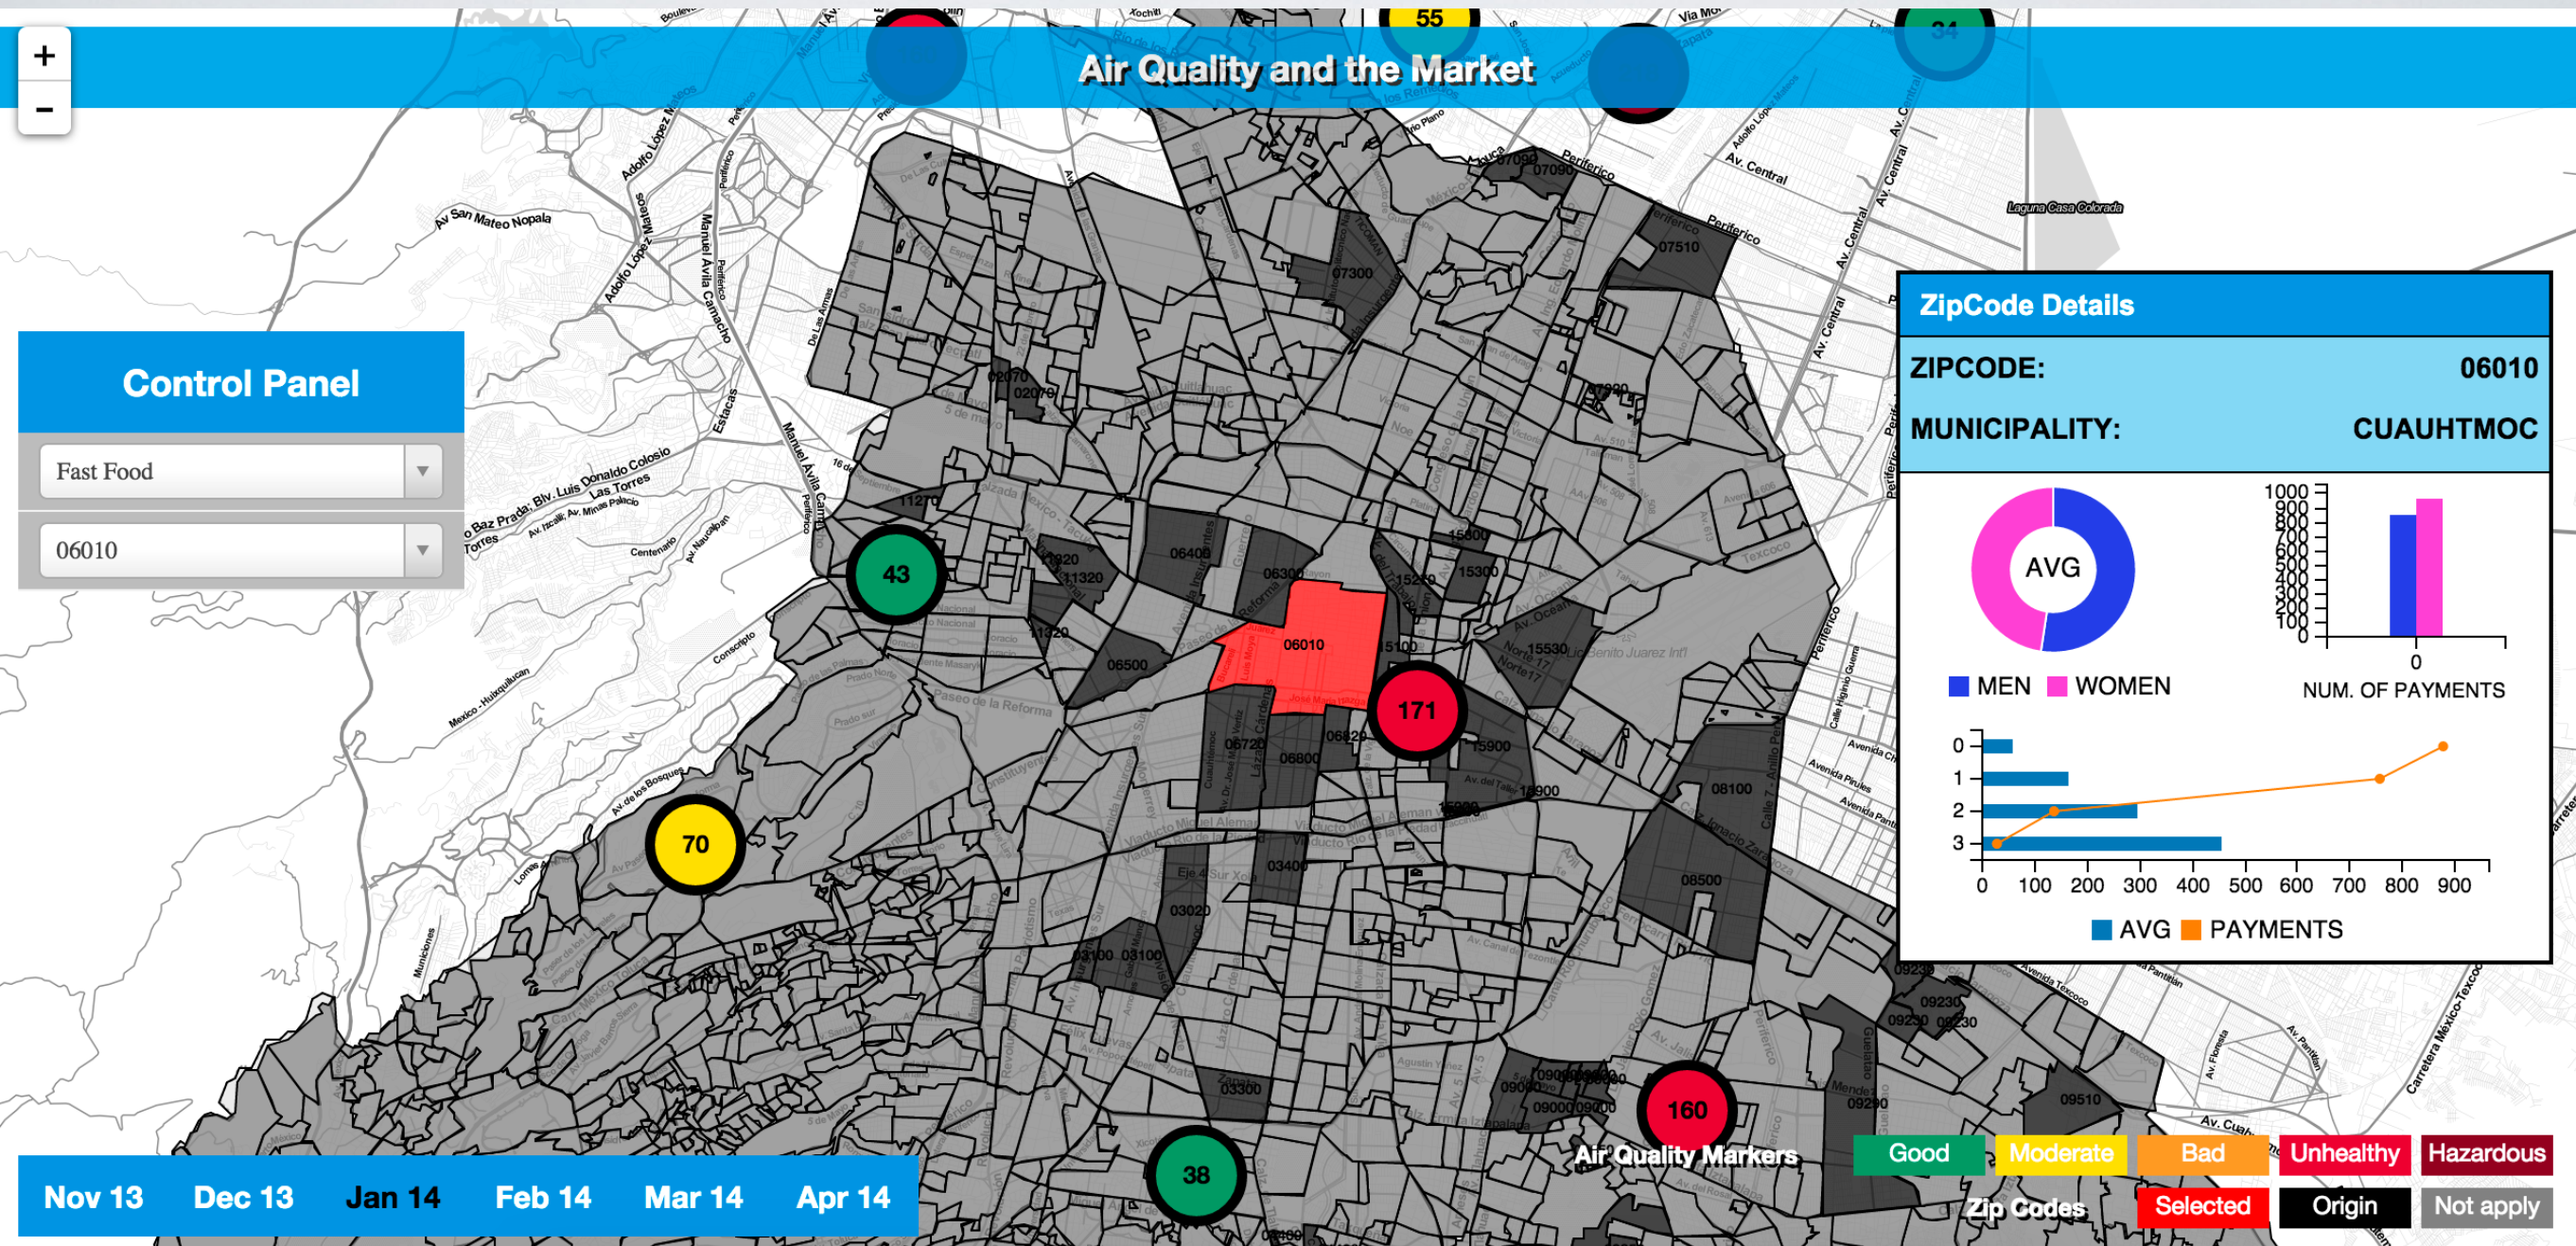

HOW TO USE IT

This is a web application for desktop using open source technologies like HTML, CSS, OpenStreetMap, Leaflet and QGIS
